

# Vice President's Challenge

August 2021

# Dena Harding

This appliquéd project started out as a birthday present for my wonderful friend Karla Samples Eastham. And as so many of my projects do, it just kept evolving. The hearts and trees represent a year in Karla's life and her love of gardening.

When I decided to add the encouraging words from "Oh The Places You'll Go", I realize it would serve double duty as the VP Challenge.

Happy Birthday Karla!

# Deana Abramowitz

The moon is a very light crescent moon in the upper right hand corner. (It's always hard to see the moon in daytime!)

# Linda Lampson

Before COVID the next trip we hoped to go on was to India. Since we couldn't do that I thought i would try making a Kawandi quilt. I was inspired by the video of Joe Cunningham interviewing Margaret Fabrizio. This is still in process.

Thanks to all for rising to the challenge!
